## Note From Dr. Perry

As we get into 2021, I believe it's going to be a year of new beginnings! It's true that our country is still not back to normal, but we're getting there! With all the changes we have gone through this past year and with even more changes coming in 2021... maybe this is the year you change your smile to the one you've been dreaming of. Whether it's a complete smile makeover, teeth straightening, bleaching, or cosmetic reshaping we're here to guide you in the best way to meet your cosmetic goals. If you are uneasy about the time spent in the chair or a little anxious, we can ease your worries with oral conscious sedation. You go to sleep and wake up with the smile of your dreams! Both Dr. Dan and I have a great deal of experience in cosmetic dentistry. And we're here to help!

Talk to us... we're here for you!

*Sincerely,  
Dr. Perry*

## Smile Story

### Madalyn Johnson

Our patient Madalyn had peg lateral incisors, which is a condition where the second tooth on either side of the upper front teeth does not develop correctly and is often small and pointed. Throughout the years she had bonding done to fill the laterals but no matter how many times she got them bonded they would stain and break down. Years later she had the opportunity to get these beautiful veneers, it was a complete smile makeover. She now can smile ear to ear and we see the joy in her face!

## Cosmetic Story

### 16 Years Later...

Hi! My name is Denise. I wanted to share with you my experience with veneers on my front teeth! My teeth weren't considered terrible by any means, but I really wanted to have a smile I love!! I was very apprehensive about

having work done on my front teeth, which would greatly affect my appearance...I was very nervous. After working at Rancho Dental for a few years, I worked side by side and witnessed first hand the beautiful cosmetic dentistry that was done by Dr. Perry. I watched it really transform our patient's confidence. Soon enough I had the confidence to get mine done! That was 16 years ago! Here is my smile today. To this day I still get compliments on my teeth and smile! One of the best decisions I've ever made. If you've ever considered changing your smile, call for a free consultation and see for yourself all the beautiful cosmetic work Dr. Perry has done! He is truly the best!

Please note a recent Facebook review:

*"I saw Dr. F. Davis Perry today and he was amazing. I had a cap and fillings done, and he and his dental assistant Collete worked quickly and seamlessly together in such a calm and comfortable way. Everything was done before I knew it, with no pain. Thank you to you both and your whole amazing team."*

## KATY 101.3 and Rancho Dental Kids Club

In celebration of National Children's Dental Health Month we partnered with KATY 101.3 to promote the benefits of good oral health care for children. MIA, the midday DJ talked on air about the benefits of good oral health for kids, and we gave away a Kids Sonicare Toothbrush every week to KATY listeners. As a result, February 2021 was a record breaking month for kids coming in for exams, cleanings and KIDS CLUB memberships! We are looking forward to keeping the next generation of smiles happy and healthy!
