## Notable Smiles

"Dr. Perry and his awesome staff at Rancho Dental recently helped me perfect my smile and I LOVE IT!! I recently had cosmetic dentistry work done and it was hands down the best experience for me in a dental chair. Dr. Perry is so gentle and professional. [This experience] actually helped me cure my dental anxiety!! I'm happy to say that I actually enjoy going to the dentist now and I love showing off my new pearly whites!"

*-Mama Mia on 101.3 The Mix Midday Personality*

Mia had 4 porcelain veneers placed to correct discoloration and chipping for an even more beautiful smile.

One of our recent recipients of "Patient of the Month" is Pamela. She was embarrassed of her smile because she had neglected it for so many years, which resulted in cracks on her teeth, discoloration, and loss of some of her teeth. When Pamela decided to make a change, she was looking for a dentist she could trust and came in to have a consultation with Dr. Dan.

"Because of his enthusiasm, optimism and confidence in the results, I went for it!"

Pamela came in over the next few months to have her upper and lower teeth placed with porcelain crowns.

As for the results, in her own words she says, "After 3 months of pain free procedures, I had my beautiful teeth; Beautiful, shiny, clean, perfectly shaped teeth, thanks to Dr. Dan's artistic eye. I no longer hide my face when I smile, and the more I smile, the better I feel. I had never expected it to be so easy. The Rancho Dental staff is the best group of people. They are professional, kind, caring, and awesome!"

## A Note from Dr. Perry: Veneers

*Over the years we've done quite a few porcelain veneers, esthetic makeover cases. We continue to believe that these are the most esthetically pleasing restorations we do!*

*Veneers are a fingernail thickness of highly polished porcelain, that blends beautifully with the remaining teeth. Multiple veneers can be used to align teeth, alter shape and color. These restorations are also one of the most conservative procedures that we perform.*

*In fact, we can now do "minimal" or "no prep" veneers. This allows us, in some cases to get great results with doing no preparation to the teeth! Newer technology allows us to fabricate incredibly thin laminates that look fabulous!*

*Porcelain veneers continue to be one of the best choices for esthetic dentistry. If you're interested, let's talk!*

Sincerely,  
Dr. Perry
