A Note From the Team at Rancho Dental

"Spring has sprung and summer is upon us."

It is time for families to be excited about summer vacation and wedding season is here. Is your smile as straight as you want it? Is your smile as balanced as you want it? Is your smile as white and sparkling as you want it?

Those are the situations we are here for! Let us give you the smile you desire with the dentistry you deserve. We can help improve your smile with preventative, restorative, and cosmetic healthcare. Whether it is teeth whitening, veneers, or onlays... let us help you to make you feel like the best you.

Dr. Perry's Health Tip

"An Ounce Of Prevention"

The dental procedures we regularly perform can cause inflammation in the teeth as well as the jaw joints. At Rancho Dental we routinely dispense anti-inflammatories when we perform dental procedures. Studies have shown that two Tylenol and two Advil, taken in a single dose have a very effective anti-inflammatory response. And this results in great pain relief! The other advantage is that this all occurs without the side effects of narcotic pain relievers. The key to any analgesic is to start the medication before the pain starts...So that's why we routinely offer the two Tylenol and two Advil at the end of dental visits. We want to "nip the inflammatory response in the bud!" Next time you have dental treatment performed, consider "an ounce of prevention"...it may really help.

*We want to
"nip the
inflammatory
response
in the bud!"*

Smile Makeover Story

Smile Case #2

Cynthia came to Rancho Dental with an unaesthetic bonding on her two front teeth from a previous trauma. In addition the gum line was irregular and the teeth were short. The teeth were wider than they were short.

The first step to give Cynthia the smile she wanted was to invite Escondido Oral Surgeon, Gary Unhold

who used esthetic crown lengthening on the front two teeth. This helped harmonize the gum level in the smile zone.

After the area had healed, we finished with four ceramic veneers. Cynthia's beautiful smile now matches the beautiful person she is, inside and out.

*Would you like to be a dental
raffle winner?*

**Refer someone to
Rancho Dental!**

Rancho Dental Raffle

Winners!

Rosa won a \$500 gift certificate to South Coast Winery & Resort!

Betty won an iPad Air!

Do you want to be our next raffle winner?

We encourage our patients to refer their family and friends to us. Many have done so because they trust us and love the dental work we do. To show our appreciation to our loyal patients we have developed the Thank You Referral Program.

How does Rancho Dental's Thank You Referral Program work?

If you know anyone looking for a general or cosmetic dentist, refer them to Rancho Dental! Once your referral books and keep their appointment, your name will be entered in the dental raffle winner jar. We choose a new winner every two months! The prizes for a dental raffle winner are fantastic and have up to a five-hundred dollar value! Apple products have been given as prizes as well as gift cards!
